## About Geopure

Geopure is a trusted brand synonymous with unmatched quality, performance and after sales service. Geopure delivers product with the end-consumer in mind and therefore devotes a great deal of time and efforts to research their needs and requirements and hence ends up with products which are not only aesthetically appealing but also most safe, reliable and userfriendly. Geopure water purifiers are powered with pentair 100 GPD pumps and RO membranes.

Geopure Domestic water purifiers introduce six variants of domestic water purifiers that could meet the varying needs. Geopure Industrial water purification systems are custom made, depending on the water quality, purpose and the volume required per day.

Suitable models are available for Houses, Schools, Hostels, Hospitals, Villas, Apartments, Flats and Industrial purposes.

## STP/ Sewage Treatment Plant

A waste water treatment plant cleans sewage and waste water so that they can be returned to the environment. These plants remove solids and pollutants, break down organic matter and restore the oxygen content of treated water.

Every STP plant is designed on a custom made system. The design and steps of STP plant depends on the nature of the wastes to be treated, volume and the disposal of treated water.

The processes involved in removing the contaminants include physical processes such as settling and filtration, chemical processes such as disinfection and coagulation, and biological processes such as slow sand filtration.

## 7 STAGES OF GEOPURE CLASSY

MRP. ₹ 17,999

Storage Tank Capacity  8ltr.

-  5 Micron Cartridge
-  Fine Sediment Cartridge
